## **DETAILED ACTION**

## Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 7-9,11,14,15,19-26,32-35,37-44 are allowable over the prior art of record because none of these references disclose or can be combined to yield the claimed invention such as the h:s ratio associated with the height of the conductive lines relative to their spacing therebetween is greater than the w:t ratio associated with the width of the center conductive line relative to a thickness of the dielectric as recited in claims 7,14, each conductive line comprising a first edge against the surface of the dielectric; the dielectric comprises a dielectric constant the same as that of the dielectric beneath the conductive material as recited in claim 11, the ratio h:s for the height h of the conductive lines relative to the gap distance s being greater than 1.5 times the ratio W:t for the width W of the center conductive line relative to the dielectric thickness t as recited in claim 19, opposing sidewalls extending away from the dielectric, and a second edge opposite the first edge, and each of amplifiers driving the source end of the at least one of the conductive lines as recited in claim 20, and a data buffer to source a data signal to the plurality of conductive lines as recited in claim 32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled ""Comments on Statement of Reasons for Allowance."
